Wednesday 7th June 2023

Dear Parents/Carers

We are pleased to be able to host an event for parent and carers about building digital resilience and how to keep your children safe online. This will enable them to grow and become more independent. You will then feel confident that they have the skills and knowledge they need to make good choices and stay safe.

The event has something for all families, whether your children are off to secondary school in September, or are one of our younger pupils.

Date: Wednesday 28th June Time: 3.00

Duration: 1 Hour

The session will be delivered by a specialist education officer from KCC and will focus on straight forward and practical strategies that can help you:

- Understand the risks and issues.
- Start age-appropriate conversations about difficult or embarrassing issues (before someone else does or your child asks Alexa).
- Find free good quality resources.
- Build resilience in children to protect them from exploitation by online predators.
- Dealing with issues in WhatsApp group chat and other social media platforms.
- Understand how video games, gaming platforms can be used to exploit children and spread hate.
- Stop your child being scared or fooled by misinformation and fake news.
- What to do and where to get help if things go wrong.

This event is to inform and support parents. Therefore, it is not appropriate for children to attend (babies in arms are allowed). We will be running activities after school for your children to take part in while you are at the meeting.

It is really important you attend this meeting and the class that has the best parent attendance will win a class reward! Please sign up below.

Yours sincerely,

Mrs H Smith
Assistant Headteacher
